

AMERICAN FORCES ENTER TRENCHES ON NORTHERN FRONT UNDER HOT FIRE

Detachments of Pershing's Men Face Germans on Line Barring Way to Amiens; Attack Opened on Toul Sector to Keep More From Going North; Ypres Under Heavy Bombardment

HOLE REGION IS SWEEPED BY GAS SHELLS

LONDON, April 29.—The British troops around Ypres several times after dawn this morning sent up S. O. S. signals for artillery support, telegraphs the Reuter's correspondent at the British headquarters in France. Although no definite report of an infantry attack in this region has yet been received the correspondent adds the tremendous German bombardment points to the certainty of a German attempt to advance.

WITH THE BRITISH ARMY IN FRANCE. April 29.—The fourth German army this morning heavily attacked the allied front in Flanders. Prisoners captured have admitted that the German intention is to attempt to capture Ypres. The attack extends over a front of 15 miles.

WITH THE AMERICAN ARMIES IN NORTHERN FRANCE. April 29.—American troops have taken up positions the French battle front under the French high command, in which all ranks have supreme confidence. The American forces the enemy on the line barring the Germans from Paris and where they have been a certain number of days.

There was increased artillery activity on the Toul sector to day. This was accompanied by intermittent machine and rifle fire.

The enemy activity is taken to mean that he is striving to the Americans busy so they cannot be sent north.

The Americans on entering the line found their positions in rolling terrain. The artillery was the first on the line entering a dark night which was made red by the continuous flashes of friendly and hostile guns.

When the infantry moved in the firing was just as intense, some places our troops, after passing through villages were now and then with shrapnel. In several instances they did the trenches shallow while in other cases there were no trenches at all.

The American lines generally are about 200 to 400 yards apart and the high ground is about evenly divided.

The training period for the American troops lasted a few days after which they moved up to within sound of the guns. They rested while awaiting orders to go into battle at the same time giving the last touches to their equipment.

While waiting for the time when the Germans again come across No Man's Land the Americans have not lost sight of the progress in their neighborhood. French and English were brought up as soon as the men arrived. As many 15 men may be seen reading one paper at the same time, the office reports receiving first attention.

For a few days before the troops went into the trenches officers took energetic measures to suppress false and vicious reports regarding the progress of the battle. How these reports seem to be unknown but the Americans on this front have reached a state of mind such that they will believe nothing they hear.

YPRES OFFENSIVE IS RESUMED. LONDON, April 29.—The Germans this morning opened a heavy bombardment with high explosive and gas shells on the front between Meteren and Voormezele south and south of Ypres the war office announced today.

An enemy attack which developed yesterday afternoon in vicinity of Locre west of Mount Kemmel was repulsed. There was great activity by the hostile artillery during last night from the river Scarpe opposite Arras north of Lens and even Givenchy and Nieppe wood on the southern side of the battlefield.

GERMANS FIRE CHECKS DRIVE TOWARD AMIENS. LONDON, April 29.—The German drive toward Amiens was checked by a heavy bombardment of the front before Amiens was reached by the French. The French fire checked the drive.

DEFENSE GROWS OVER GERMAN GRAB. LONDON, April 29.—The news of the German grab of the Petrograd dispatch has denounced the Petrograd dispatch as a new treaty with Germany under Russian rule.

S. L. MESTREZAT, EMINENT JURIST, CALLED BY DEATH

ranked high with the members of the Supreme Court, because the manner in which he handled his cases disclosed the painstaking and conscientious lawyer.

In 1877 Mr. Mestrezat was elected district attorney of Fayette county on the Democratic ticket. In 1884-5 he was chairman of the Democratic committee of Fayette county, and a member of the Democratic State executive committee. He was a delegate to the Democratic State convention in 1882 that nominated Robert E. Pattison for governor; to the convention of 1892 that selected Grover Cleveland for president. When Mr. Pattison was re-elected governor in 1890 Mr. Mestrezat was strongly supported by the bench, bar and press in all parts of the state for the appointment in his cabinet to the place of Attorney General, but this position did not go to the western part of the state.

After successful and lucrative practice in the state and federal courts Mr. Mestrezat was, in 1893, elected judge of the Fourteenth judicial district, comprising the counties of Fayette and Greene, by majority of nearly 2,000. At no time during the hotly contested campaign was there any doubt of his election. In both counties his sterling qualities as a man and his ability as a lawyer were well known. When Nathaniel Evans retired from the bench in 1898 Judge Mestrezat became president judge of the district.

Judge Mestrezat was elected to the State Supreme bench on November 7th, 1899, and on January 1, 1900, at Philadelphia, he took his seat on the supreme bench of the state for the term of 21 years.

In 1888 Judge Mestrezat married Miss Eliza Wilson Ewing, daughter of John K. and Ellen L. Ewing of Uniontown. Mrs. Mestrezat died a few years after her marriage, leaving one child, Raymond William, which did not long survive her.

In recognition of his ability and success at the bar Waynesburg college conferred on Justice Mestrezat the degree of Doctor of Laws.

Justice Mestrezat was a Presbyterian.

THE PATRIOTISM OF DAWSON GIVEN FINE RECOGNITION

former, in making presentation of the honor flag, gave an address on "Our Present Duty," which was a stirring appeal to our citizenry as a whole to awake to a realization of what we must do before we can even approach the sacrifices our soldiers are making. Father Glennon's address of acceptance thrilled the audience with its spirit of true Americanism and earnest call to duty and sacrifice.

That Dawson had occasion to thus do honor to the citizens for the part they have taken in the war is found in the fact that 53 of its young men, out of a population of 950 souls, have already entered the military service.

On the first Liberty Loan 49 people of Dawson subscribed \$105.00 on an allotment of \$60.00. In the second Liberty Loan, with a quota of \$115.00, one hundred and ten subscribers purchased bonds to the amount of \$125.00, and in the third Liberty Loan 172 subscribers have already applied for bonds valued at more than \$230,000, and the canvass is progressing rapidly to a new self-chosen quota of \$250,000.

In addition to these investments in Liberty Bonds, Dawson raised \$8,500 for the Red Cross in the war fund drive of last June, added to this \$648 in the Christmas membership campaign of last December, has raised \$487.50 by special Red Cross donations and took a Red Cross collection last night amounting to \$57.50. Subscriptions to the Y. M. C. A. war fund amounted to \$4,162.30 and the Knights of Columbus fund \$465.

WEDNESDAY, MAY 1, IS ONLY DAY TO REGISTER FOR PRIMARY, MAY 21

Republicans of Connelville who were not registered last fall or who have lost their right of franchise by removal from one ward to another or into the city from some other locality have the opportunity to qualify for the primary election on May 21 by appearing before the registrars in person on Wednesday, May 1, and registering. This is the only day set aside for that purpose in advance of the primary. The registrars will be at the regular polling places to enroll voters between the hours of 8 a. m. and 1 p. m., 2 and 6 p. m. and 7 and 10 p. m. Take along your tax receipt and if naturalized your naturalization papers. Nominates for important offices are to be chosen and it therefore behooves every patriotic Republican to prepare to exercise his right of franchise.

Woman Dies Here Aged 87 Years

Special to The Courier
SCOTTSVILLE, April 28—Never in
the history of Scottsville have so many
persons gathered in town for any
occasion as gathered yesterday to see
the draft contingent that left from this dis-
trict for Camp Lee. People were
lined up Pittsburg street until it was
almost impossible to get through.
Promptly at 5 o'clock the draftees left
the Y. M. C. A. where they had report-
ed and were led by the G. A. R. band.
As they marched down the street the
citizens felt themselves a committee
to escort them to the train and men
and women and children fell in line and
marched down the street and over to
Everson where the boys entrained on
the special Baltimore & Ohio train
that had come down from Mt. Pleasant.
Lunches were provided for every
boy. Among those who left were
Roy McCallan, John P. Grumley,
Harry Guest, Ralph G. Walker, Har-
old K. Kirschbaum, and Ben J. Willard
of Scottsville. Paul Korcek, Leon
Marosch and Victor Kuttera, of Mt.
Pleasant, and Walter C. Gaffney and
Peter Skero, Jr. of Lufsdale and
Tarts.

Mrs. Catherine Cramer.
Mrs. Catherine Cramer aged 87
years died at the Everson home of
her daughter Mrs. Fred Lentz yes-
terday of paralysis after an illness of
four months. She was survived by
three sons, S. D. Cramer and C. D.
Cramer of Indian Head and C. C.
Cramer superintendent of the Mt.
Pleasant Coal & Coke works at Be-
atty and four daughters, Mr. Mar-
garet Wissinger, Scottsville, Mrs. M. S.
Cadden, Connellsville, and Mrs. Fred
Lentz, Everson. She leaves 11 grand-
children and 21 great grandchildren.
For 42 years she was a resident of
Indian Head. She was the widow of
David H. Cramer, a Civil War veteran.
For 72 years she was a member of the
First Baptist church of Indian Head.
Today at 12:30 P. M. the funeral
part left by motor for Indian Head.
The remains were taken to her home.
Funeral services will be held at 1
o'clock Tuesday afternoon and inter-
ment will follow in the Sparks ceme-
tery.

On Friday evening Mrs. C. Lee Mel-
linger entertained the members of the
Iris club with a dancing party. Very
nice refreshments were served.

Soldier Not Involved
Investigation discloses that the ru-
mor to the effect that a Scottsville sol-
dier had been involved in misap-
propriation of government funds is
without foundation. To the contrary
the boy holds a commission from the
government and is being a high es-
teem by those in authority.

Sermon to Odd Fellows.
The Odd Fellows had their 99th an-
niversary service at the United Breth-

Rev. I. E. Runk, delivered an unusual-
ly good sermon and there was special

age I got a bottle of the Annie Tablets,
double strength and the relief was
wonderful. I am relieved of the back
ache and the secretion is healthy looking.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sorrowful complexion—dark rings under your eyes—rattles—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for cod liver oil in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by forcing up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

For Burning Eczema

Greasy salves and ointments should not be applied if good clear skin is wanted. From any druggist for 35c or \$1.00 for extra large size, get a bottle of zemo. When applied as directed it effectively removes eczema, quickly stops itching, and heals skin troubles, also sores, burns, wounds and chafing. It penetrates, cleanses and soothes. Zemo is a clean, dependable and inexpensive, penetrating, antiseptic liquid. Try it, as we believe nothing you have ever used is as effective and satisfying. The E. W. Rice Co., Cleveland, O.

SCRATCHING HIS BACK CAUSES AN EXPLOSION.

A railroad man named Beals, employed on the Baltimore & Ohio railroad near Dunbar, was sent to a tool house to bring some powder. The can, covered with a board, stood on the floor above the door. Beals, while above the can, on a little shelf on the wall, a lot of matches were lying. Beals entered the house, removed the board from the can, and then turned around to scratch his back by rubbing it against the wall.

The motion jolted some of the powder to from the shelf and they lodged between his back and the wall. The same motion ignited the matches, and when Beals started up they fell into the powder. An explosion, of course, followed.

Beals was hurled through the door and across the tracks. He would have fallen over the bluff had he not succeeded in grasping one of the rails. He was severely burned about the face and neck.

The Ability of A Specialist

Is Measured by the Curves He Makes and Not by the Number of Diseases He Treats.

The true specialist, who conscientiously confines himself to a line of his chosen field. Our whole professional lives, not very short, and certainly never inactive, have been earnestly devoted to originating and perfecting cures for the diseases of your specialty.

DYSPEPSIA, ACIDITY AND CHRONIC. Under our treatment diseases rapidly disappear. Plain cases almost instantly. The points of stagnant blood are driven from the dilated veins and up arteries and swelling quickly subsides. Every indication of disease soon vanishes, and in its stead comes perfect health.

Our treatment may all inflammation, reduces the glands, cleanses and heals the kidneys when irritated or enlarged, invigorates the system and restores health and soundness.

BLOOD POISON. Our cure for blood poison is practically the result of our life work and is endorsed by the best physicians of this and foreign countries. It contains no dangerous drugs or injurious medicines of any kind. It goes to the very bottom of the disease and forces out every particle of impurity. Soon every sign and symptom of blood poison disappears completely and forever. The blood, the tissue, the flesh, the bones and the whole system are cleansed, purified and restored to perfect health.

Many ailments are reflex, originating from other diseases. In treating diseases of any kind we always relieve the effect as well as the cause.

Only diseases and cases that we can greatly benefit or cure will be received for treatment.

NOTE—Patients' names are published by written consent only, and because WE DO CURE and PROVE IT. You do not have to take the state-ment for any REMEDYABLE DISEASE. See our patients. Let them tell you another very important thing for you to know is that you will ALWAYS find The United Specialists SOBER when you call, giving RELIABLE service and results and you need only pay as you get well.

CHIEF'S DIFFERENT NOW. "I had been sick for five years with a bad case of stomach, kidney and bladder trouble. I went to the United Specialists and after three weeks I was feeling in first class shape."

"R. F. D. 1, Greensburg, Pa." "For nine months I had suffered almost constantly with awful severe backache. At times I would be so bad that I could hardly move. Was troubled with smothering spells, while at rest dizziness, nervousness. Could not sleep. I took up treatment with the United Specialists and my back feels entirely well. Also the rest of the conditions I complained of."

"MRS. ANNIE FORTNA," "Tired and Mailed Sick." "Belle Vernon, Pa." "For three years I had been troubled with shortness of breath. I would go so bad at night I could not sleep lying down. I would have to sit up with pillows behind me. I felt all weak and run down and did not seem to have any strength and together with my age, thought my time for this world was short. I called upon the United Medical Specialists, and after my back and a half treatment I am feeling fine and working every day."

VIOLENCE DISCOURAGED

County Loan Committee Opposed to Rule of the Mob in Drive.

The Fayette county Liberty Loan committee does not approve of the acts of violence against non-purchasers of Liberty Bonds. The following statement has been issued as setting forth its views:

"The Liberty Loan committee rejoices in the multiplying evidences of patriotic zeal and determination on the part of all those who are so loyally supporting the campaign in Fayette county. To these men and women whose blood is quickened by thought of the sacrifices and the perils of those who are upholding the banner of our country across the seas we shall owe the success of this great undertaking. But the committee wishes to speak a word of caution that we do not permit ourselves any indulgence in those measures which are so alien to the ideals for which the President has summoned us to war. There are other ways, more potent and effective than resorts to violence, whereby a community can express its contempt of those whose indifference or hostility to our purpose unites them for association with true Americans. We trust therefore that none of our citizens will commit any act which the whole country may not remember with pride befitting our cause."

How Men Handle Their Money—
Alonso Yates.
Alonso Yates lived for five years, from 1894 to 1899, at such a pace that he spent \$504,000.00 a year. This wealth had been accumulated during a period of forty years by his father, a Syracuse merchant. It took the son a scant five years to squander \$500,000.00 of hard earned money. The sharp contrast between the way the father and son handled money is instructive. The father was respected and the son was laughed at. The father had an abundance and the son died in poverty. The Confessions of a German Deserter

Written by a Prussian Officer Who Participated in the Ravaging and Pillaging of Belgium

Copyright by Detroit Free Press

CHAPTER I.

I am a German soldier. Naturally at the time when the war started we did not know that there would be such a war as is being waged today.

Daily we soldiers were told that France and Russia wanted to attack us and that the Kaiser was doing everything possible for our protection. Already on July 20 we were armed to the teeth and prepared to march away. During these preparations, which showed us all that war had to come, 18 men of my company deserted.

The government published, during this time, bulletins almost hourly to prepare the people for the war, a subterfuge that succeeded perfectly. Consequently two days before war was declared, the people were overwhelmingly for war, but they were certain that it was only to be between Germany and France.

Of the intervention of Belgium, Russia, England and Italy, the country had as little thought as it did of any participation of the United States. All thought only of the promise to Paris, which, to the disappointment of the people, and also, surely to the disappointment of the autocracy, has been longer drawn out than had been wished for.

In these days of uncertainty the soldiers, contrary to the cruel treatment which they had experienced before, were treated liberally with great quantities of supplies, delicacies and beer, so that most of the soldiers were so drunk continuously that they were unable to realize the seriousness of the situation.

And yet the majority of the soldiers could not be enthused over the war. They cheered and were enthusiastic because they knew it was the orders. On July 31, 1914, one day before the declaration of war, we left after being brought to war strength for our garrison at Malmedy-Rheine.

Where the enemy toward which we were to point our bayonets was we had not the slightest idea. All we did know was that we had to be transported somewhere to protect the border.

There were stirring times as we started out. Tens of thousands of people threw flowers at us and all wanted to shake hands. All—even soldiers—cried! Many embraced their wives or young brides. The bands played farewell songs and people laughed and cried all at the same time. Strangers embraced and kissed each other. "A veritable wild holiday" of emotion was loosened and engulfed the populace like a storm. No one, not even the strongest, could resist its powers. Yet even this was surpassed by the leave-taking at the depot, where last farewells had to be said. This scene will never leave me! How desperately many women clung to their men! Many had to be forcibly removed.

But this was at last done and then we were placed in cattle cars. Night came and we had no lights. The train went slowly toward the Rhine. It went smoothly enough. Our company, which had had days of great excitement, welcomed the rest that the journey afforded. Most of the soldiers slept with their knapsacks as pillows. Others looked dreamily into the future. Still others secretly pulled pictures from their breastpockets and only a very few killed time by discussion and comment on their possible destination.

"Where are we going?" Yes, where? No one knew. Then after endless hours, the train stopped. We were in Duren. What were we there for? We did not know. The officers only shrugged their shoulders at our questions.

After a brief pause we went ahead. On the evening of August 1 we reached a farmyard near Duren. Our company was billeted in a barn. No one knew what we had to do. Ignorant of the purpose of our being sent so near the Belgian border we laid down on our beds of straw. Something had to happen soon to rescue us from this uncertainty.

How few suspected that would be the last night for many of us on German ground.

An alarm took us from our beds at 3 a. m. The company gathered and the captain demonstrated the war situation. As to the direction of the march he himself was ignorant.

Scarcely half an hour later 50 big trucks drove up and stopped on the road before our quarters. The drivers also were ignorant and waited for orders. Discussion of our destination started afresh. The orderlies who had been keeping their ears open said we would enter Belgium that day. Others contradicted them, no one knew for certain.

But the order to march did not come and in the evening we went back to our straw. But the rest was short. At 1 a. m. we were again aroused and honored by a speech from our captain. He told us to show ourselves brave, deserve the iron cross and bring honor to Germany. Then he continued:

"We only make war against the armed force, the Belgian army. Life and property of civilians are protected under international law. Yet you soldiers must not forget to keep your lives for the fatherland or sell them as wished for."

Honored by a Speech From Our Captain.

dearly as possible. Unnecessary shedding of blood we will prohibit to the civilian population. Yet I ask you to consider that too much consideration borders on cowardice and that will be punished very severely."

After this speech of our captain we were loaded on our autos and at 4 a. m. crossed the border into Belgium. In order to make this a historical occasion we were ordered to give three cheers. On the speedy autos we reached our goal at 10 a. m. It was a beautiful little rural village. Inhabitants of the villages we had passed looked at us in astonishment, so that we all got the impression that these country people never knew why we came to Belgium. They were frightened out of their sleep and looked out at us from their windows.

As we halted and left our autos, the farmers came out and offered us coffee, bread, meat, etc. We were still without a field kitchen, so that we enjoyed the enemy's offerings more so since those of the better class of villagers refused any pay. They told us the Belgian soldiers had departed to some unknown destination.

After a short rest we marched on. The autos returned. Hardly had we marched an hour when we were overtaken by cavalry, dragons and hussars, who reported that the Germans were marching all over the neighborhood on all roads. Right behind came the bicycle corps.

This was comforting. We no longer felt alone, isolated in a strange country. Another bicycle division over-

took us and passed on. Angry words were now uttered by members of our company. The others could ride but we had to walk. What we had always taken for granted suddenly became great injustice. If it did no good our grumbling at least was a diversion from the weight of our packs.

The heat was oppressive. The sweat came from all pores. The new and stiff leather trappings robbed us sore, especially upon our hips. It was a relief at 2 p. m. to halt at an abandoned farm and rest on the grass. We might have lain down about ten minutes when suddenly we heard firing. We jumped up like lightning and hurried to our guns. The firing which was about three kilometers away grew more lively. At once we were on the march again.

From the expressions on the faces of the soldiers we could read the minds of the men. Something took possession of them which they had never experienced before. As for myself I became very restless. Fright and curiosity lashed my brain. Everything whirled around in my head and my heart was beating wildly. But I strove to conceal my fright from my comrades. I am sure that I tried energetically. I don't know that I succeeded better than my companions.

Although I knew we would be in the fight in an hour, I tried to persuade myself that our interference would not be necessary. I clung tightly to everything which might strengthen this hope.

The bicycles lying in the road indicated that the bicycle division was in the fight at this point. How strong the enemy was we did not know as we raced toward the firing line. Everybody crouched down as low as possible while jumping to the right and left. Before and behind us the bullets were flying continuously, yet we reached the firing line without losses. We were greeted joyously by our hard-pressed comrades. The bicycle regiment had not suffered any losses except for a few slightly wounded men who were still able to take part in the fight.

We were lying flat on the ground and firing in the direction ordered for all we were worth, even though we had not seen our enemies. That was apparently not interesting enough to some of our soldiers. They wanted to know how the people were looking whom they had to shoot at. They got up to a kneeling position. Two men of my company had to pay for their curiosity with their lives almost instantly. The first victim of our party went down without a sound. The second threw his arms high in the air and fell on his back. Both were dead instantly.

It is impossible for me to describe the feeling that overcame me in the first real volley as we advanced and came directly within the range of the fire. I no longer felt any fright, only an impulse to get into action as quickly as possible. Yet at the sight of the first corpse a terrible fear seized me. For minutes I was completely stunned, lost all self-control and was absolutely unable to think or do anything.

I pressed my face and hands close to the ground. I wanted to clutch my gun and shoot blindly. Presently I calmed down. I suddenly became contented with myself and conditions about me and when soon afterward the command was sounded along the whole line, "Spring out!" "Forward march!" I charged as did everyone else like one possessed. The order to halt followed. Like wet bags we plumped to the ground. Firing had begun anew.

Our firing now became more lively momentarily and increased to a fearful loudness. If we had occasion to say anything to our comrades we had to shout so loudly in their ears that it hurt our throats.

Under the effect of our fire the enemy grew restless, the fire weakened and his line wavered. As only 500 meters separated us from them we could observe exactly what happened there. We saw about half the enemy retire in the following manner: Every other man quit the line, leaving his alternate in his place. Those remaining held on until the retiring party halted. We used this moment to inflict the most severe losses on the retreating enemy. As far as we could scan the horizon to the right and left we saw the Germans advancing in several sections. Also for our detachments the order came to advance as the enemy retreated.

The task of clinging to the heels of the retreating enemy so tenaciously that no time would be allowed to make a new stand fell to us. We followed the Belgians, scarcely stopping to breathe on the way, in order to prevent their fortifying themselves in a village situated just ahead. We knew that a bloody house-to-house fight lay before us, yet the Belgians never attempted to establish themselves, but managed to escape with astonishing cleverness.

EAT MORE RICE

Is Rice or Food Experts, Would Help Solve Problem of Saving Wheat.

Rice should have a more important place in the diet says the United States Department of Agriculture in one of a series of statements reviewing the agricultural situation for 1918. Increased production and consumption of rice not only would expand a profitable industry but the eating of more rice in the place of wheat would release a greater quantity of the bread grain for shipment to the Allies.

The average per capita consumption of six pounds per year in the United States is smaller than that of many European countries where rice is not even produced. Norway and Sweden consume over nine pounds per capita. Russia over 11 pounds. England 27 pounds. France 34 pounds. Italy over 32 pounds. But even these European countries do not begin to eat as much rice as Japan and China.

In these eastern countries rice is the most important article of diet. Every man, woman and child in Japan on the average consumes 147 pounds of rice each year and those in China 138 pounds.

"We accepted this war for a worthy object, and the war will end when that object is attained. Under God, I hope it will not end until that time."
